Maths

This week in numeracy, Year 1 have been exploring fact families and number bonds within 10. The children have been learning how numbers are connected through addition facts and how three numbers can be used to create a family of related number sentences. They have been practising finding different ways to make numbers up to 10 and developing their understanding of how numbers work together.

Literacy

The class has been orally rehearsing and writing sentences to describe different objects using adjectives. The children have been developing their vocabulary and learning how to choose interesting words to make their sentences more descriptive. We have also been exploring different sentence types, including statements, questions and commands, and learning how to recognise and use them in our writing.

Islamic Studies - Ghusl

This week in Islamic studies as a part of our Fiqh section, Children learnt about Ghusl and the Faraa'idh of Ghusl. They were taught about the importance and the virtues of Ghusl. Children were made to understand that while doing Ghusl, if any of the Faraa'idh are left out then Ghusl will be incomplete.

Science

The children completed their end-of-unit science quiz on *Animals Including Humans*. The children were given the opportunity to demonstrate their understanding of the topics covered throughout the unit, including identifying and naming common animals, recognising different animal groups and comparing their features. They also revisited animal diets, sorting animals into carnivores, herbivores and omnivores, and identifying parts of the human body linked to our five senses. The quiz helped us assess the children's understanding of key scientific vocabulary and concepts. Well done, Year 1, for putting your scientific knowledge to the test!

THIS WEEK'S
STARS OF THE WEEK

Ikhlas and Haroon

REMINDERS:

- ☐ Year 1 PE lessons are on Mondays and Wednesdays
- ☐ Homework is given out every Friday and due on Wednesday.
